Making a Garden Potting Bench

You will need to cut your pop sticks as listed below

Please note measurements are approx only.

Table top 5 long pieces of wood (104mm) + 1 short piece (87mm)

Back Legs 2 long pieces of wood (98mm)

Front legs 2 short pieces of wood (75mm)

Side frames 4 short pieces of wood (45mm)

Front & Back frames 4 long pieces of wood (95mm)

Lower slats 7 small pieces of wood (58mm)

Pickets 9 pointed sticks – varied heights.

(Can you thinner basswood if available)

1 x 75mm

2 x 60mm

2 x 57mm

2 x 50mm

2 x 45mm

Tools Needed

Ruler

Mini Coping Saw (optional) or Stanley Knife

Small Mitre (optional)

PVC Wood Glue

Paint or Varnish (optional)

Sandpaper Fine

Work Mat

Instructions

- Build your side frames first (fig. 2 & 3)
- Glue front and back supports (fig. 4)
- Glue single top back shelf to tall supports and top of bench sticks horizontally. (fig. 5)
- Glue bottom slats vertically with a space between each slat (fig 6)
- Sand edges to round them off when glue is dry.
- Glue fence pickets along the back of the table placing the centre picket first making sure the picket is centred - place and glue the support piece behind the pickets.

*Do not get glue on craft wood where visible as the glue will not varnish. Lightly sand glue off if painting or staining.

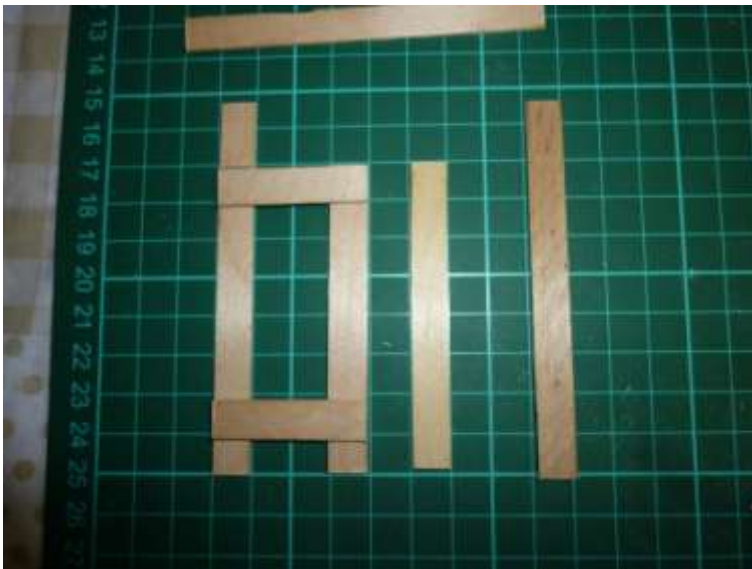

*Use your eyes (and/or ruler) to check that everything is straight or centred at each stage as this will insure your finished bench is aligned.

GARDEN POTTING BENCH INSTRUCTIONS

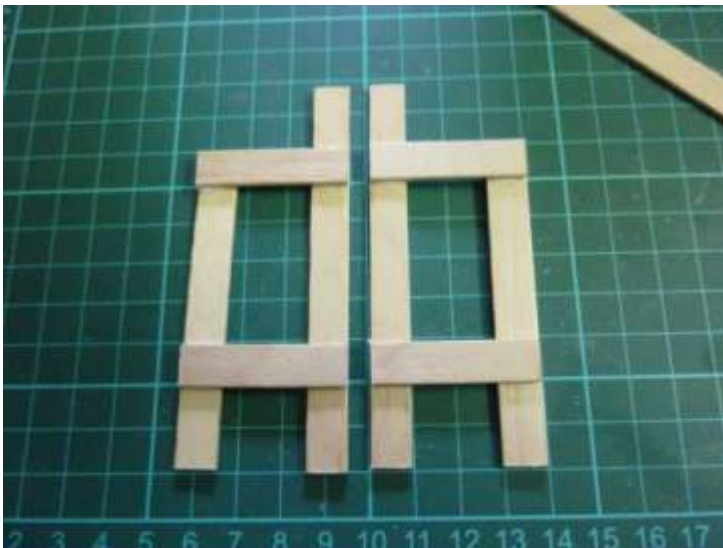

1 – Using your own Pop Sticks

(optional)

2 – Line-up sides with cutting mat or ruler – making sure supports are opposite.

3 – Check both sides are level

4 – Attach front and back supports

5 – Lay top shelf on tall back supports. Start laying top of bench from front - overlapping front by approx 2mm.

6 – Lay bottom shelf leaving small even spaces between each stick. Glue picket pieces as per instructions.
